KRIS

KRIS FOR SALONS

Italian skincare for your treatment room.

Five essential formulas and the rituals built around them, made for professionals who work with skin every day.

KRISTINA AND KRISTJAN

Born from a phone call between brother and sister

We are Kristina and Kristjan, brother and sister. Kris Beauty & Cosmetics was born in Venice, between Italy and Albania, from a phone call that joined a passion for beauty with a philosophy of daily, concrete and sincere gestures.

The formulas are produced by an Italian laboratory and made for every skin type. A few products, each with a clear role in the ritual, so your salon works with a language that is easy to share with clients.

> **The essential becomes luxury.**

5

products, one ritual

20-60+

years, women and men

Made in Italy

formulas produced in an Italian laboratory

The range

Skinimalism: a few products, each with a clear role in the ritual. For every skin type, for women and men aged 20 to 60+.

Delicate Cleansing Milk

With goji berries and black mulberry. Cleanses the skin and removes make-up, including around the eyes.

SIZE 200 ML

Revitalising Toner

A toning lotion with plant stem cells from grape and Swiss apple, vitamin PP and stabilised vitamin C, with a delicate citrus scent.

SIZE 200 ML

Vitamin C Serum 10%

Stabilised vitamin C at 10% for an even-looking skin tone.

SIZE 40 ML

Hyaluronic Acid Serum 15%

Deep hydration in an essential formula of eight ingredients.

SIZE 40 ML

Hydrating Anti-Aging Cream

With caviar, retinol and coenzyme Q10. The red microspheres open with massage and release the actives.

SIZE 40 ML

The ritual in the treatment room

Four steps, always in the same order.

01

Purify

Cleansing milk on face, neck and décolleté with circular movements. Remove with lukewarm water or a cotton pad.

02

Awaken

Toner sprayed on the face or applied with a cotton pad, patting gently.

03

Treat

Vitamin C Serum and Hyaluronic Acid Serum: 2-3 drops on face, neck and décolleté.

04

Nourish

Cream with a slow massage that opens the red microspheres and guides the actives into the skin.
